Professional Summary

Computer Science graduate with hands-on experience in Python, Django, SQL, database-driven applications, and full-stack development through internships and academic projects. Familiar with data analysis, machine learning, Linux, networking fundamentals, and AWS cloud services. Experienced in developing, debugging, and optimizing software applications, with a strong interest in software development, cloud technologies, and IT solutions.

Technical Skills

Programming : Python
Web Technologies: HTML, CSS, Bootstrap
Databases: MySQL, SQL Server, SQLite
Cloud: AWS – EC2, S3, IAM, VPC, CloudWatch (Fundamentals)
Operating Systems: Linux (Basic Commands), Windows
Networking: TCP/IP, DNS, HTTP, OSI Model (Basics)
Tools & Platforms: Git, VS Code, Jupyter Notebook, SQL Server Management Studio, MS Office (Excel, Word, PowerPoint)

Internship Experience

Full Stack Development Intern

D&D Cloud | Sep 2025 – Mar 2026

- Developed and optimized full-stack web applications using Python and Django.
- Designed REST-based backend modules to support scalable web application features.
- Implemented database-driven functionalities using SQL queries and relational database design.
- Collaborated with team members to build maintainable and modular code following software engineering practices.
- Assisted in debugging and improving application performance.

Full Stack Development Intern

Datapoint | Dec 2024 – Mar 2025

- Developed and maintained full-stack web applications using Python, Django, HTML, CSS, and Bootstrap.
- Built backend modules and implemented database interactions to support dynamic web functionality.
- Integrated machine learning models (Linear Regression / Random Forest) into Django applications to enable real-time prediction features.
- Performed data preprocessing and feature engineering to prepare datasets for machine learning workflows.
- Tested, debugged, and optimized application performance to ensure reliable and scalable solutions.
- Collaborated with mentors and team members following software development best practices and version control workflows.

Projects

E-Commerce Management System Code

- Built a console-based e-commerce platform simulating real-world online shopping workflows.
- Designed modular components for product management, shopping cart, and order processing.
- Implemented database operations for inventory management and order tracking.
- Developed reusable modules following OOP and clean coding practices.
- Focused on writing modular, reusable functions and testing each component for functionality and performance.
- **Technologies Used:** Python, SQLite, CSV, File Handling, OOP Concepts

Real Estate Price Prediction Web Application Code

- Developed an end-to-end web application for predicting property prices.
- Built backend APIs using Django framework integrated with machine learning models.
- Implemented a dynamic frontend interface connected to backend prediction services.
- Designed database schema and handled data processing pipelines.
- **Technologies Used**: Django, HTML, CSS, JavaScript, Scikit-learn, SQLite

Exploratory Data Analysis – E-Commerce Dataset Code

- Performed data cleaning, transformation, and visualization on e-commerce datasets.
- Generated insights into customer behavior and product performance.
- Built analytical workflows using Python data science libraries.
- **Technologies Used:** Python, Jupyter Notebook, Pandas, NumPy, Matplotlib, Seaborn.

Education

Swarnandhra College of Engineering and Technology
B.Tech in Computer Science and Engineering
- 2021 - 2025 | GPA: 7.13/10.0

Janaki Junior College
Intermediate (MPC)
- 2019 - 2021 | Marks: 721/1000

Sri Gayathri Public School
SSC
- 2018 - 2019 | GPA: 8.0/10.0

Certifications

Python for Data Science - NPTEL Certificate
SQL(Basic) - HackerRank Certificate
Machine Learning with Python - IBM Certificate
AWS Academy Graduate - AWS Academy Cloud Architecting Certificate

Activities

- Participated in a national-level hackathon organized by Swarnandhra College and Brainovision Solutions.
- Active participant in technical and cultural college events, enhancing teamwork and collaboration skills.
